

# SBX36

## DEBUTING IN 2019

Sea Blade is a yacht-quality, versatile vessel built on the best-performing rough-water underbody ever engineered.

Featuring a hull derived from Hawaiian law-enforcement boats, the Sea Blade line is engineered to perform smoothly on open ocean. The extra-deep-V and stabilizing stepped hull reduce stress on the bodies of Naval operators. With the SBX36, this same hull form is now available to recreational boaters who expect the best-possible performance coupled with the precision and luxury of a high-end yacht tender.

The SBX36 is the first of the new Sea Blade series, now under construction. Island commuter, superyacht tender, family fun: the SBX36 is the new standard for opulent high-performance.

### PRINCIPLE DIMENSIONS

Length overall (incl engines)	39'-10"
Length overall (excl engines)	37'-5"
Length waterline	33'-6"
Beam (max)	13'-10"
Draft (hull)	2'-3"
Weight	10,950 lbs

### TANKAGE

Fuel oil	300 gallons
Fresh water	10 gallons
Holding	12 gallons

### PROPULSION

2 x Yamaha 300 V6 or  
2 x Mercury Verado 350 V6

# SBX36 SPECIFICATIONS

## CONSTRUCTION

Stabilized entrapment tunnel monohull  
Inflatable hypalon perimeter tube  
Tabbed attachment  
Fiberglass hull with foam core  
CNC-cut tooling  
Structural longitudinal girders and stringers  
Fiberglass structural bulkheads  
Vinylester resin infused  
Recessed transom with door

## COCKPIT

Anchor locker  
Vee-shaped settee with storage below  
Access hatches in cockpit sole  
Live well in recessed transom  
Teak decking  
Self-bailing cockpit with transom scuppers

## CONSOLE

Forward seat  
Removable cooler/bin below  
Fully integrated controls and electronics  
Day head with toilet and sink  
Lockable door  
Opening portlight

## T-TOP

FRP T-top  
Powder-coated aluminum tubing  
Electronics box in T-top  
Acrylic windshield

## ELECTRICAL SYSTEM

12VDC system  
1 x alternators on main engines  
2 x starting battery  
1 x house battery  
LED navigation and courtesy lights

## NAVIGATION, COMMUNICATION & ENTERTAINMENT

Multifunction for charting, navigation, radar and autopilot  
High-definition color 48nm radome  
GPS receiver  
Compass  
VHF radio  
AM/FM/Bletooth radio with speakers

## LEANING POST

Bolstered marine adjustable seats  
Seat slides  
Aft-facing bench seat with cooler/bin below

## PROPULSION

2 x Yamaha 300 V6 or  
2 x Mercury Verado 350 V6  
Power steering, tilt and trim  
Digital controls  
Analog gauges for MPH, RPM, Oil Pressure, Oil Level, Water Temperature, Fuel Level, Voltmeter  
Engine hour meters

## SYSTEMS

High-capacity water-separating fuel filter  
Pressurized freshwater: head and wash-down  
Windshield wiper with freshwater rinse  
Pressurized saltwater wash-down  
Live well system  
Head sink  
Console sink  
Vacuflush head  
Holding tank  
Overboard discharge or shoreside via Y-valve  
Submersible bilge pumps

## ANCHOR HANDLING & DOCKING

Danforth anchor, manually deployed  
Rope rode  
Fenders  
Dock and spring lines

## SAFETY

Life jackets  
Hand-held fire extinguishers
